

CERTIFICATE OF APPROVAL

This is to certify that

Spectrum Metal Finishing, Inc.

is an

APPROVED APPLICATOR

is an approved Mix & Match™ manufacturer for the Fluropon® family of
70% fluoropolymer (PVDF) resin based paints.

Spectrum Metal Finishing, Inc. personnel have been fully trained at our AAMA certified laboratory in
Garland, Texas, USA, and have passed all inspections regarding their ability to
maintain our extraordinarily high industry standards.

THE VALSPAR CORPORATION manufactures all Mix & Match™ bases under ISO 9001 procedures.

There is no difference between Valspar factory manufactured paint and *Spectrum Metal Finishing, Inc.*
paint.

Fluropon® colors meet the high performance standards of AAMA 2605-05.

Any Fluropon® product manufactured by *Spectrum Metal Finishing, Inc.* using the Mix & Match™ color
manufacturing system is eligible for the same warranty as the Fluropon® colors manufactured at our
own company in the United States.
